THERE ARE TWO DIFFERENT TYPES OF HOLD

CHANNEL HOLD

- Click anywhere in the text box to freeze reception on the current channel. This selects one channel (not an entire active bank). The text turns **orange** and all banks turn **gray**. Click the text box to return to full reception.

BANK HOLD

- On any bank button, hold press and release when button turns **orange**. The bank stays orange and becomes the only active bank. The time slider turns **orange**. All other banks turn **gray** and become inactive. Tap bank to exit HOLD and return to full reception.

PRIORITY MODE

- Banks can be in *priority mode*, so transmissions play first, before any others. Priority banks are **blue**, and a separate **blue** time slider appears.

ALL BANKS

- Click to switch all banks ON or OFF at once.

MORE BANKS

- If the page has more banks than fit on the screen, click < or > to access them.

INDEX PAGE

- Click to go to the INDEX page - turns **red** when at INDEX.

HOME PAGE

- Click to go to the HOME page - turns **red** when at HOME.

BACK

- Click to go to the previous page.

ADDRESS BOX

- Shows current connection. Click, then type, to navigate to other pages by address.
