

QUICK START

The most important information for using the RangeCast player.

BANK CONTROL BUTTONS
 > Click to switch ON (**green**) or OFF (**red**).

CURRENT TRANSMISSION
 Shown in three places:
 > FULL DETAILS in text box.
 > **White** activity bar on bank button.
 > **Red** marker under time slider.

PAUSE
 Click to PAUSE all reception.

REPLAY
 Click to REPLAY the current or last reception.

SKIP
 Click to SKIP the current reception.

REVERSE
 Click to play transmissions in reverse order.

TIME SLIDER
 > Click in slider to go back in time.
 > Click dot to return to current time.
 > Click left controls to expand or contract.

The screenshot shows the RangeCast player interface. At the top, it displays 'US COAST GUARD NEWPORT CH-22A 167.100 Mon Oct 27 15:07:20 EDT 12.6s'. Below this is a time slider with a red marker at 15:07:20. A vertical activity bar on the right side of the slider is white. At the bottom, there are several bank control buttons: HOTEL (red), TOWING (red), FRS 12 (green), POLICE (green), EMS (green), USCG (green), and FIRE (green). A 'More ...' button is also visible on the right side of the interface.

THERE ARE TWO DIFFERENT TYPES OF HOLD

CHANNEL HOLD
 Click anywhere in the text box to freeze reception on the current channel. This selects one channel (not an entire active bank). The text turns **orange** and all banks turn **gray**. Click the text box to return to full reception.

This screenshot shows the RangeCast player interface with Channel Hold activated. The text box at the top, which previously displayed transmission details, is now orange. The bank control buttons below are all gray. The time slider and other interface elements remain visible.

This screenshot shows the RangeCast player interface with Bank Hold activated. The bank control buttons are now orange, and the text box at the top is gray. The time slider and other interface elements remain visible.

BANK HOLD
 On any bank button, hold press and release when button turns **orange**. The bank stays orange and becomes the only active bank. The time slider turns **orange**. All other banks turn **gray** and become inactive. Tap bank to exit HOLD and return to full reception.
